

Sunita Gandhi is Educationist of the Year 2014, India Book of Records, and Visionary of Uttar Pradesh 2017. She is a passionate educator who started her first school at the age of 14 for the underprivileged children in her home's neighborhood. She has founded schools in the Czech Republic, Iceland and India, and has been guiding transformation at many others worldwide.

Sunita Gandhi has a Ph.D. in Physics from Cambridge University, UK, on academic scholarships. Though a physicist, she was selected in the toughest competition to enter the Young Professionals Program as Economist at the World Bank in Washington, DC. She left her

prestigious job after ten years to follow her dream of working first-hand on literacy and education in India, and to help her parents with their world's largest school—City Montessori School, Lucknow, India.

Learning her biggest lessons by working in the trenches with children and women in India's slums and villages, Dr. Gandhi came up with the Global Dream Campaign and the ALfA Pedagogy, or Accelerating Learning for All—a transformative, swift and effective means to accelerate learning for all. Replicated into 25 Indian and International languages, Global Dream has begun to spread across all continents of the world.

Her 15-year research on Ipsative Assessments in Iceland, India and UK was published in the UK in 2017. Her research on literacy inequalities was published in Glasgow University's Journal of New Economics, UK, and in the Education & Political Weekly of India in 2021.

She has travelled to and studied education systems in 49 countries.
